# Advanced technology *solutions*

Pall-Ex Group's IT strategy is to develop a high quality operational system that captures accurate and relevant information which can be cascaded to all stakeholders.

Nexus has been created in-house as a solid foundation to power the entire network and future growth.

## **NEXUS**

A one-stop logistics management solution, which fuels our global network enabling the highest levels of efficient service and visibility to customers.

As a Pall-Ex customer with an account you will have access to this cloud-based platform, with its user friendly interface, where you can view core information straight away.

Real-time interaction between all our users is seamless and provides up to the minute visibility of consignments through any web enabled hardware.

### **TRACK & TRACE**

The award-winning freight visibility portal, MyNexus is dedicated to the needs of all our customers.

It combines international and domestic consignment data entry with a completely transparent track-and-trace dashboard.

MyNexus combines data from a number of the Nexus modules to give customers access to the latest information on any shipment that has been placed through the Pall-Ex network.

Additional consignment import functionality also gives customers the ability to integrate via a CSV file, which removes process duplication and improves operational efficiency.

- ▶ Award-winning track and trace
- ▶ Easy consignment entry
- ▶ Live dashboard
- ▶ GPS Tracking
- ▶ Live proof of delivery (POD)
